SUMMARY

Frontend Developer with strong expertise in React and TypeScript, building dynamic and scalable web applications using component-based architecture. Experienced in Vue.js with 2 years of building intuitive user interfaces and enhancing UX. Proficient in modern frontend tools and workflows, including Vite, Tailwind CSS, and state management libraries like Redux and Pinia. Skilled in RESTful API integration, responsive design, and performance optimization. Familiar with backend technologies including Node.js and Express, and comfortable working with PostgreSQL and Drizzle ORM. Committed to writing clean, maintainable code and delivering impactful, user-centered solutions.

KEY COMPETENCIES

HTML, CSS	Tailwind CSS	PostgreSQL
Typescript	Shadcn UI	Drizzle-Orm
React.js	Swiper	Prisma
Next.js	UploadThing	TRPC
